

THE IDEA

Why reinvent the wheel?

The creative tools are already powerful. Framewise builds assistance around the applications artists know.

KEEP YOUR CREATIVE TOOLSET.

Professional production knowledge and setup practices inform the work. Artists review the proposed result and keep shaping it.

HOUDINI ASSIST / REVIEW, THEN BUILD

PROFESSIONAL WORKFLOW ASSISTANCE

MEET LATYNRAI

Bring a workflow.

Start a conversation.

For creators and studios: discuss a focused pilot around a real production task or storyboard sequence.

For investors and partners: explore product validation and the next milestone for creative workflow assistance.

FRAMEWISE

AI + ML FOR CREATIVE WORKFLOWS

**Keep the tools.
Unlock the
stories.**

Creative assistance for
Houdini, Nuke,
Maya and Blender.

Professional workflows.
Editable setups.
Artist control.

LATYNRAI CREATIVES

YOUR EXISTING PIPELINE

Four applications. One creative goal.

HOUDINI

Procedural modelling and effects workflows.

NUKE

Compositing workflows and node-based shot development.

MAYA

Scene, asset and animation workflows.

BLENDER

Modelling and scene creation workflows.

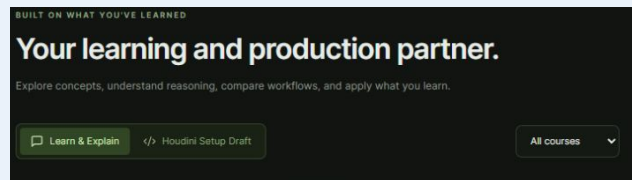

All sources	Text extracted	Pipeline complete	Needs review
534 Files registered in place	503 Extraction finished; includes complete sources	4 All five stages finished; not human approved	22 Sources with important unresolved questions

YOUR KNOWLEDGE. VISIBLE PROGRESS.

Track library coverage and review needs. Actual workspace snapshot, 4 Oct 2026; processing is not human approval.

THE WORKFLOW

From intent to a useful setup.

FRAMEWISE / KNOWLEDGE ASSISTANT

01 FIND THE KNOW-HOW

Search production knowledge and workflows.

02 UNDERSTAND THE REASONING

Explore context, limitations and trade-offs.

03 REVIEW AND APPLY

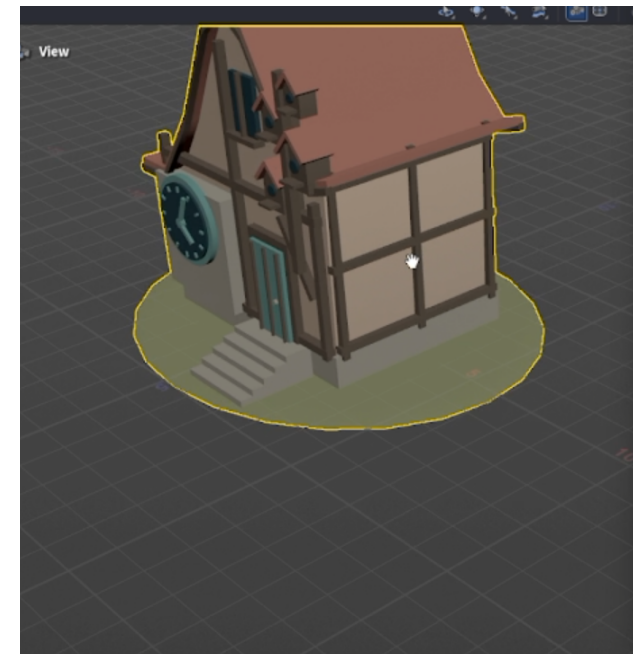

Check references; keep creative control.

BRING US A REAL PRODUCTION TASK.

KNOW-HOW APPLIED TO YOUR WORKFLOW

IN THE DEMONSTRATION

Editable geometry. Inside Houdini.

Actual Houdini Assist demo: a visual reference becomes editable starting geometry.

The screenshot illustrates the Houdini workflow. Artists refine details and complete final rendering.
